2907 FREMBES ROAD

WATERFORD, MI 48329

MON - FRI 8AM - 5PM

## DOOR OVERLAY

Overlay is the amount of face frame covered by the door.

### Traditional Overlay

1/2" of face frame is covered by door, exposing 1" of the frame on all sides.

### Full Overlay

1-1/4" of face frame is covered by door, exposing 1/4" of the frame on all sides. 1" of face frame is exposed at top for wall and tall cabinets.

## DOOR PANEL

**Recessed**

**Raised**

**Slab**

## FINISHES

The uniqueness of wood is in its color variation and grain pattern. These natural wood variations, along with conditions in the home, will affect the final appearance of any wood product overtime. Sunlight, temperature, and humidity are some factors that contribute to the true color of a finish. Painted doors may develop noticeable seam lines and finish breaks at joint separations. Please consider these conditions as your cabinetry ages.

## CABINET ORDERING PROCESS

1

### SKETCH FLOOR PLAN

Use our cabinet planning sheet (reverse side) to sketch your space with these measurements: walls, windows, entryways.

2

### DESIGN YOUR SPACE

Add your appliances to the sketch. Keep in mind the workflow you want and how to best achieve the recommended "triangle workspace."

3

### CABINET SELECTION

Make your cabinet door selection, including specie, style, and color. We have multiple cabinet lines to choose from, each offering options for your desired style.

4

### DESIGN PACKET

We will collect all of your design preferences, along with your layout and appliance measurements, and create a full quote with renderings of the space.

5

### REVIEW & CHANGE REQUESTS

Check out your newly designed space and review the itemized quote sheet. Note any necessary changes to the layout or style selections.

6

### BEGIN ORDERING PROCESS

Ready to order your cabinetry? Great! When you place a down payment (50% of total order), you'll receive an updated design packet, including the floor plan.

7

### INSTALLER CONFIRMATION

Spend some time confirming all of the details of your space with your installer. Each job has different requirements and limitations, so review all measurements and specifications.

8

### CUSTOMER SIGN-OFF

Any final changes to the design will be made, and you will receive a final design packet. Once a signature has been received, your order will be placed.

9

### FINALIZE ORDERING PROCESS

Your order will be placed with the manufacturer. No changes or cancelations can be made at this point. You will receive an ETA within 72 hours.

10

### GET YOUR CABINETS

Your cabinets are ready! You can arrange for pick-up when the remaining balance has been paid in full. Job site delivery may be available to you (subject to the manufacturer).
